There has been a spate of rural burglaries across the Monmouthshire area. Please remain vigilant and report any suspicious activity. Please also refer to the Secured by Design website which contains guidance on how to secure your property and recommends specific products to use. This can be accessed here:

In relation to this spate, we are working closely with our Rural Crime Team and have increased patrols in all rural areas.

We are also delivering Smart Water packs to victims of crime. Smart Water is a traceable liquid and forensic asset that is invisible to the naked eye. Each bottle has a unique DNA and is applied to items of value. Signage and stickers are placed around the property highlighting its usage and acts as a deterrent to thieves/ opportunists.

Should an item be stolen, and either be recovered by Police or by being taken into a shop to sell, the item will be scanned under ultraviolet light to check for Smart Water. A scrapping is then taken and analysed which reveals the property the item was removed from.

We also hold a monthly surgery should anyone wish to come and speak to us. This is held in the Usk Community Hub and our next date is Monday 10th June 10am – 12pm. The Rural Crime Team also hold regular surgeries at Raglan Cattle Market. They advertise their surgeries on their X (formerly Twitter) page but can be contacted through:

However, should you wish to report anything, then please do so through our 101 non-emergency number, our website, social media or 999 for an emergency.
